This is not a guide to the best martinis in Miami. This is a guide to the best places in Miami for when your shirt is tucked in and you're feeling dignified. Or for when you just read a page of *War and Peace* after getting out of the sauna, and now you need to rehydrate. That's because the martini isn't just a drink—it's a mood. It doesn't matter if you prefer it dry, dirty, shaken, stirred, with gin, or with vodka. What matters is the setting in which you drink it.

The Gibson Room on Coral Way has no shortage of qualities we look for in a martini bar: great food, severed animal heads on the wall, moody lighting, chandeliers, and live jazz. Coming here hungry is certainly a good idea. They serve an impressively crispy chicken schnitzel, foie gras flan, and more rotating dishes that range from uni butter popcorn to oxtail and shrimp ramen. But it's a great place to hang out regardless, especially since there's always either a band or DJ playing here.
